

# Distribution/Packaging and Warehousing

Sko-Die recognizes that a quality manufactured product must be backed by distribution systems that are also world class. From the acquisition and storage of raw materials to the delivery of the finished part, we are the experts in providing the most efficient and economical process. Our people are continually trained in the latest inventory systems and packaging techniques. Our computerized inventory and order entry programs insure your parts are delivered when you need them in the quantities you need to optimize your production scheduling.
